Preliminary BackLog draft version

Prepared for openETCS@ITEA2 Project

Abstract: The Internal Assessment BackLog gathers all issues, concerns, and remarks raised by the project Internal Assessors for the Open ETCS project. All these points are discussed on the GitHub Issue tracker facility, and this backlog will address all these points, focusing on the basic issue, and its solution mainly. The detail of all reflexions and discussions can then be found in the specific related Issue.

This document is an appendix of the Internal Assessment final report.
